OVERNIGHT WORK NOTICE

Capital Line South LRT Utility Relocation Project
Saddleback Road east of 114 Street

OCTOBER 2023

PROJECT OVERVIEW

As part of the Capital Line South LRT Extension Project, EPCOR is responsible for relocating all the power, water and drainage utilities to avoid potential conflicts with the future Capital Line South LRT extension infrastructure. This is an extension of the current Capital Line, which will operate from Century Park to Ellerslie Road. The Capital Line South LRT Relocation Project began in May 2023 and is expected to be completed by the end of the year.

WHAT'S HAPPENING?

To meet the overall LRT project schedule, the City of Edmonton has requested that EPCOR perform the utility relocations within specific areas along the alignment prior to LRT construction.

Drainage work is currently occurring at several locations on the west side of 111 Street to relocate existing utilities. The work in these areas will continue until the end of 2023; however, in order to connect the newly constructed system to the existing infrastructure, overnight work is also required on Saddleback Road east of 114 Street.

The work must be completed overnight as the Twin Brooks pump station will be shut down to accommodate the tie-in. This can only be done during low flow periods (overnight) to ensure there is no back-up of the drainage system. During the overnight work, sewage will be hydovaced out of a manhole to the south and dumped into the manhole on Saddleback Road.

HOURS OF WORK

The overnight work will occur on **October 18, 2023** from **10:00pm to 10:00am.**

EPCOR will do everything possible to manage noise associated with the construction and will work to ensure that the construction is completed within the requirements of the City of Edmonton Noise Bylaw.

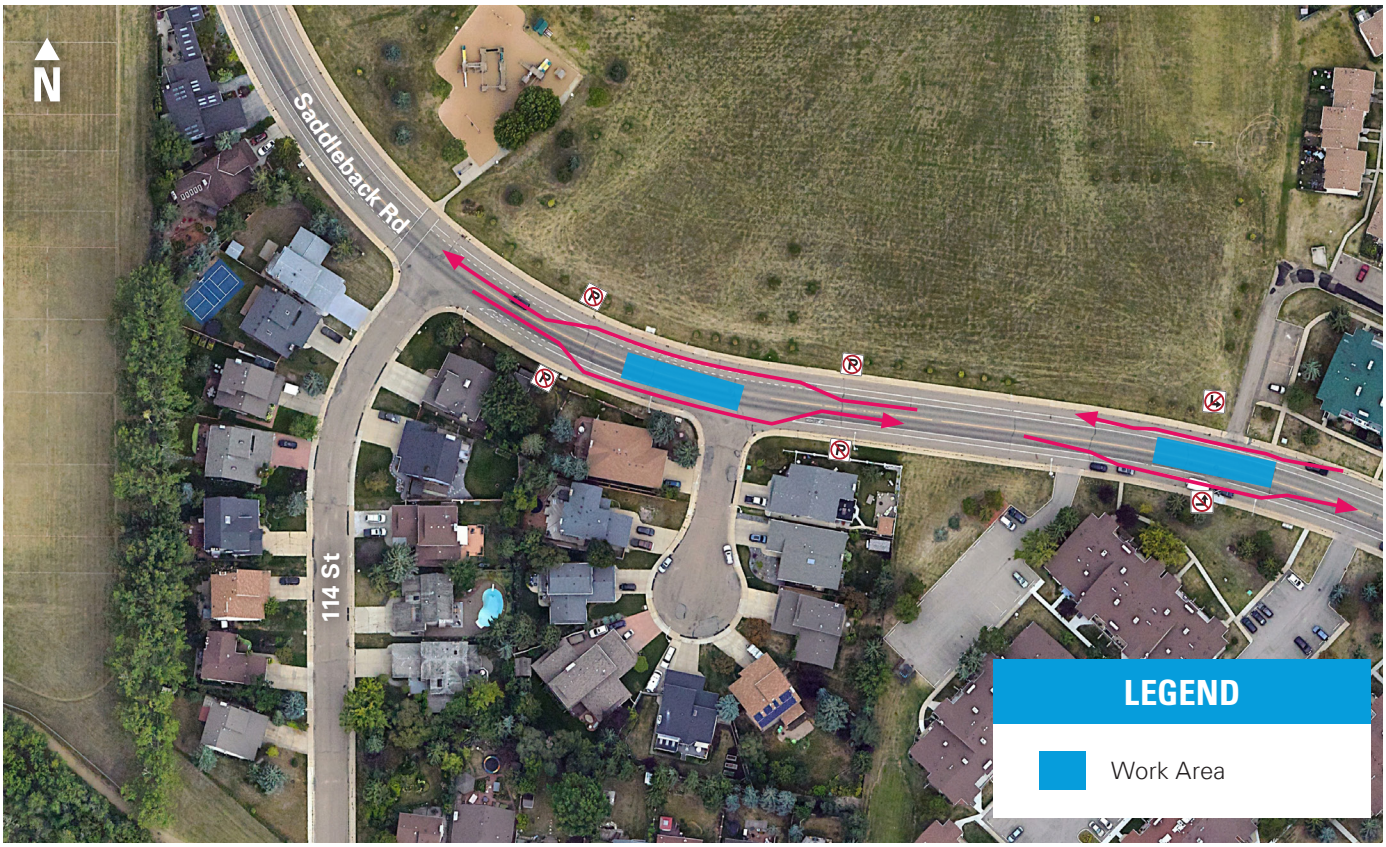
Residents may experience odour, dust and general noise as a number of construction equipment and trucks will be used to facilitate the work.

SAFETY

The construction areas will be fenced and/or marked as restricted areas. We will take every precaution to ensure public safety, and we request your assistance in keeping children and pets a safe distance from the construction site and the equipment. We thank you for your patience and understanding as we perform this necessary work.

MAP OF WORK AREA

Overnight work will occur on **October 18, 2023** from 10:00pm to 10:00am in the work areas indicated on the map. *Timelines are estimates and may change based on weather and construction conditions.*



MORE INFORMATION

EPCOR is committed to minimizing construction impacts where possible while we work in the community. If you have any questions regarding this work please contact us.
